Mr. Martin Hestmark
U. S. Environmental Protection Agency, Region VIII
ATTN: Rocky Flats Project Manager, 8HWM-RI
999 18th Street, Suite 500, 8WM-C
Denver, Colorado 80202-2405

Dear Mr. Hestmark:

Enclosed please find photographs of temporary flumes installed in Operable Units 5 and 6, as required by the U.S. Environmental Protection Agency's letter dated March 3, 1993. The photographs are accompanied by location maps and a brief description of flume installation.

The temporary flumes were installed to provide accurate stream-flow data for the OU 5 and 6 investigations. Permanent flumes are scheduled for installation in June 1993. Upon installation of permanent flumes, the temporary flumes will be removed. A second set of photographs will then be submitted to EPA showing each location without the flume.

If you have any questions, please contact Jen Pepe of my staff at 966-2184.

Sincerely,

James K. Hartman
Assistant Manager for Transition
and Environmental Restoration
